Essen, Germany | +49 155 600 78764 | karol.faiz@yahoo.com | linkedin.com/in/faiz-karol

Professional Profile

Data Analyst and Software Engineer with almost four years of experience across banking analytics, enterprise systems, regulatory reporting and advanced data science. Completed an M.Sc. in Big Data & Business Analytics in Germany and held roles at HSBC and Capgemini, working on high-impact, data-driven projects in international environments. Looking for full-time opportunities in Germany in areas such as Data Analytics, Business Intelligence, Business Analysis, IT Consulting, Product Analytics, Decision Intelligence or Graduate Programs.

Professional Experience

- Data Analyst (Working Student) – Banking & Regulatory Analytics** 03/2025 – 02/2026
HSBC Trinkaus & Burkhardt, Düsseldorf, Germany
- Automated liquidity and regulatory reporting workflows using **Python** and **VBA**, improving accuracy and reducing manual effort.
 - Supported **stress testing**, scenario modelling and capital adequacy analysis for **Asset, Liability & Capital Management (ALCM)**.
 - Delivered structured, stakeholder-oriented analyses and **dashboards** for senior management in a regulated banking environment.
- Senior Software Engineer – Enterprise Systems & Credit Decisioning** 10/2021 – 02/2024
Capgemini Technology Services (Client: HSBC), Pune, India
- Led development and maintenance of HSBC's **credit card decisioning platform** supporting 100K+ daily transactions.
 - Built and refined analytical models in **SAS Viya** (98%+ accuracy) and real-time dashboards in **SAS Visual Analytics** for multi-region reporting.
 - Managed end-to-end **SDLC** activities including requirements, design, testing, deployment and production support.
 - Identified process inefficiencies and implemented improvements, **reducing system disruptions by 25%**.
 - Mentored 5+ junior engineers and received **“Rising Star of the Year”** for impact and delivery quality.
- Python Developer Intern – Automation & Workflow Optimisation** 08/2019 – 10/2019
Peace Infotech Pvt. Ltd., Mumbai, India
- Built **Python automation** scripts for recurring workflows, **reducing execution time by 20%**.

Education

- M.Sc. Big Data & Business Analytics** 04/2024 – 02/2026
FOM University of Applied Sciences, Essen, Germany
- Master's Thesis: *Decision-Making Under Uncertainty – Tactical Intelligence Transfer from Football to Business*
 - Developed a Decision Intelligence Transfer Framework using DMDU methods (RDM, DAPP, IGDT) applied to complex strategic environments.
- B.Eng. Electronics & Telecommunications** 08/2016 – 05/2021
University of Mumbai, Mumbai, India
- Graduated with Distinction.
 - Final-year project: *Tripsy* – context-aware travel chatbot using Google Dialogflow and NLP.

Core Skills

- Data analysis, reporting and **KPI development** from multiple sources.
- Python, SQL**, Java, SAS ID, Dart/Flutter.
- Power BI, SAS Viya**, SAS Visual Analytics, Excel/VBA, Jupyter, Matplotlib.
- Machine learning (regression, classification, clustering), **NLP**, SHAP explainability.
- Requirements analysis, **SDLC**, Agile/Scrum, system configuration, testing and deployment.
- Stakeholder communication, cross-functional collaboration, documentation and training.

Selected Projects

- Master's Thesis – Decision-Making Under Uncertainty – Tactical Intelligence** 2025 – 2026
Transfer from Football to Business
- Analysed decision-making under deep uncertainty by transferring tactical intelligence concepts from elite football to business contexts.
- Promotion Profitability Optimisation Engine (Retail – Storck Germany)** 2025
- Built clustering and regression models (R^2 up to 0.78) to identify profitable promotion strategies by channel and seasonality.
- Healthcare Cost Prediction & Outcomes Analysis** 2024 – 2025
- Developed a machine learning pipeline for 60K patient episodes (Random Forest: 81% accuracy, ROC-AUC 0.83) with SHAP explainability.
- Fan Momentum Index & Formula 1 Pit Stop Analytics** 2024 – 2025
- Combined sentiment, volume and event data to analyse momentum patterns and strategy impact in live sports.

Technical Skills

Programming & Data: Python, SQL, Java, SAS ID (DS2), Dart/Flutter
Analytics & BI: Power BI, SAS Viya, SAS Visual Analytics, Jupyter, Excel/VBA, Matplotlib, Seaborn
ML & AI: scikit-learn, XGBoost, TensorFlow, NLP, SHAP
Methods: SDLC, Agile/Scrum, Waterfall, Requirements Analysis, Testing, Stakeholder Management

Awards & Languages

Awards: Rising Star of the Year (Capgemini, 2023–24); 1st Prize, IEEE Technovation 2020; Contributor to Guinness World Record STEM workshop.
Languages: English (C1, business fluent); German (A2, improving).
